Monaragala, Sri Lanka | +94 76 477 8100 | oshanda7@gmail.com

Portfolio: oshandageethanjana.github.io | LinkedIn: linkedin.com/in/oshanda-geethanjana-725574336

PROFESSIONAL SUMMARY

IT student at SLIATE with hands-on experience in full-stack web development, product building, and UI/UX design. Founder of WhiteCoder and builder of practical web platforms across education, business, healthcare, booking, and AI-assisted workflows. Experienced in developing responsive websites and web applications using HTML, CSS, JavaScript, PHP, MySQL, SQL, and Figma, with a strong interest in AI integration, product design, and scalable digital solutions.

CORE SKILLS

- Languages & Web: HTML, CSS, JavaScript, PHP, SQL, MySQL
- Development: Full-Stack Web Development, Responsive Web Design, CRUD Systems, Admin Dashboards, Form Handling, Authentication Flows
- Design & Product: UI/UX Design, Wireframing, Figma, Graphic Design, Brand-Oriented Interface Design, Product Thinking
- Tools & Workflow: Git, GitHub, VS Code, XAMPP, Debugging, Deployment Support, Version Control
- Emerging Focus: AI Integration, AI-Assisted Product Building, Prompt-Driven Workflows, Creator Tools

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (Founder) | WhiteCoder (Digital Solutions) | 2024 - Present

- Founded and operate an independent digital solutions brand delivering websites, landing pages, portfolio systems, and custom web applications for 5+ freelance clients.
- Handle end-to-end work including requirement gathering, UI/UX planning, front-end development, back-end implementation, database flow design, revisions, and deployment support.
- Build responsive interfaces and business-ready workflows using HTML, CSS, JavaScript, PHP, MySQL, and Figma.

Product Builder & Platform Developer | HND Study Hub | 2024 - Present

- Built and continue to improve a free educational platform serving 6,000+ active students in Sri Lanka with study notes, academic resources, and structured learning content.
- Designed the content flow, navigation structure, and user-friendly interface to make learning materials easier to find and use on desktop and mobile devices.
- Managed platform branding, updates, and product improvements while aligning the experience with student needs.

Customer Service & Recovery Officer | Abans PLC | 2023 - 2024

- Resolved customer inquiries and recovery-related issues while maintaining service quality, communication standards, and operational accuracy.
- Strengthened client communication, issue resolution, and process coordination skills in a fast-paced retail environment.

SELECTED PROJECTS

WhiteCoder Copilot | AI Product

- Built as an all-in-one intelligent assistant concept for coding support, content creation, ideation, and workflow assistance inside the WhiteCoder ecosystem.
- Keywords: AI integration, prompt workflows, workflow automation, web interface planning, product design.

FOLIO by WhiteCoder | SaaS Portfolio Builder

- Developed as a portfolio-building platform that helps users create premium personal websites through customizable layouts, dashboard-driven flows, and responsive UI components.

- Keywords: responsive design, dashboard UI, portfolio builder, SaaS product planning, HTML, CSS, JavaScript, UI/UX.

WCProbe by WhiteCoder | Domain and IP Analysis Tool

- Designed as a utility platform for DNS checks, SSL inspection, MX records, reverse DNS, IP lookups, and geo-location style analysis workflows.
- Keywords: domain analysis, DNS lookup, SSL inspection, technical tooling, data display, diagnostic interfaces.

Kanvel Hotel Online Booking System | Hotel Reservation Platform

- Designed a web-based booking and room management concept around online reservations, customer-friendly browsing, and admin-side room management workflows.
- Keywords: PHP, MySQL, HTML, CSS, JavaScript, booking system, admin dashboard, hotel reservation workflow.

Aarogya Channel Management System | Healthcare Appointment and Records Platform

- Planned and developed a healthcare management concept covering appointments, patient records, online consultations, notifications, and analytics-oriented features.
- Keywords: healthcare web application, appointment management, secure records, PHP, MySQL, admin workflow, analytics.

Smart POS System | Retail and Billing System

- Built as a point-of-sale concept for billing, product handling, cashier workflows, and business operations support.
- Keywords: POS system, billing workflow, inventory handling, cashier dashboard, business system usability.
